ACCELERATING WIND ENERGY DEVELOPMENT IN THE BALKANS
POLICIES, INVESTMENT, DEPLOYMENT, SUPPLY CHAIN, O&M

CONFEERENCE AGENDA

ORGANISED BY:
THE VOICE OF RENEWABLES
renewable energy media and events
08:00 Registration and welcome coffee
09:00 Opening and welcome:

Mr Derek Michalski, Editor-in-Chief, The Voice of Renewables

09:30 Opening keynotes.

Ms Vesna Simic, Head of Renewables, Ministarstvo rudarstva i energetike / Ministry of Mining and Energy Serbia
Mr Nermin Džindić, Minister, Federal Ministry of Energy, Mining and Industry of Bosnia and Herzegovina
Mr Anton Ljucovic, Director-General Directorate for Energy Ministry of Economy of Montenegro

10:00 Sponsor presentation.

Mr Michael Idzior, Business Development Manager, and Mr Sebastian Herzog, Wind Farm Services for EMEA, UL Renewables – Tomorrow belongs to those who can hear it coming – developing wind & solar projects under growing complexity.

10:30 Networking break.

11:00 Review of National Policies and Regulations.

Ministarstvo rudarstva i energetike / Ministry of Mining and Energy Serbia
Mr Dejan Popović, President of the Council, Energy Agency of the Republic of Serbia (AERS)
Mr Vladislav Vladicic, President, Regulatory Commission for Energy of Republic of Srpska, Bosnia and Herzegovina

12:00 Workshop: Mr Michael Idzior, Business Development Manager, UL Renewables.

13:30 Maestrale Ring - building the largest wind farm in Europe.

Fintel Energija, the sole renewable energy company listed on the Belgrade stock exchange (BELEX), has adopted a decision to launch projects to build three new wind farms in Serbia. The 572 mw Maestrale ring will be the largest onshore wind farm under construction in Europe.

Mr Tiziano Giovannetti, Chief Executive Officer, Fintel Energija

14:00 Panel discussion: Creating stable legal environment for wind energy in Serbia and Balkans. Moderator:

Mr Miloš Vučković, Senior Partner, Karanovic & Partners

Panelists:

Mr Branislav Marić, Partner, Kinstellar, Serbia
Mr Vuk Stankovic, Attorney at Law, Rokas
Mr Nenad Stankovic, Partner, Stankovic & Partners (NSTLAW)
Ms Ana Ćalč Turudija, Partner, Prica & Partners

15:00 Day 1 closing.

19:00 Evening networking dinner (requires separate registration)
08:30 Registration Desk open.
09:00 Building and operating Balkans largest onshore wind parks.

Lessons learned during the construction of the Fântânele-Cogealac wind farm, currently the largest onshore wind park in the Balkans and second-largest in Europe and the Krnov wind farm, the largest wind farm in Montenegro.

Ms Tanja Unguran, Partner, MIM Law

09:30 Integrating renewables into Serbian energy grid.

Mr Nebojša Vucić, Director of Development Division, Elektromreža Srbije

10:00 Integrating renewables into Serbian energy grid.

Mr Nebojša Vucić, Director of Development Division, Elektromreža Srbije

10:30 Networking break.

11:00 Lessons learned/Best practices and case studies.

Mr Petar Mitrović, Partner, Karanovic & Partners

11:30 Lessons learned/Best practices and case studies.

How developing Alibunar, Malibunar, Čibuk and Kovačica wind projects changed wind energy developments in Serbia? What lessons have been learned during the development process?

Moderated by: Prof. Miroslav Lutovac, Advisor to the President of the Chamber, Serbian Chamber of Commerce

Panellists:
- Mr Tiziano Giovannetti, CEO, Fintel Energija
- Mr Miloš Colić, Managing Director, New Energy (Enlight Renewable Energy Partner)
- Mr Christophe Bols, Country Manager Serbia, Elicio Wind
- Mr Aljoša Pleić, Chief Executive Officer, Acciona Energy Croatia

12:30 Networking break.

13:00 Investing in wind energy in the Balkans: requirements, new investment avenues and obstacles.

Mr Zoran Obradović, Managing Director, wpd Adria
- Mr Rudolf Tot, Deputy of Provincial Secretary, Provincial Secretariat of Vojvodina for Energy, Construction and Transport
- Mr Aleksandar Savic, Head of Public Sector and Specialized Lending Department, Erste Bank Serbia
- Mr Vladimir Benčan, Finance Project Manager, Hrvatska poštanska banka / Croatian Postal Bank
- Mr Josip Pavković, Head of Project Finance, Hrvatska banka za obnovu i razvitak / Croatian Bank for Reconstruction and Development (HBOR)

14:00 Close of the conference.

Georgia Wind Energy Conference was an important event which provided a platform for all parts of supply chain to meet and discuss the was of accelerating wind power deployment in our country.

- Ilia Eloshvili -
Minister, Ministry of Energy of Georgia
INTRODUCING CONFERENCE SPEAKERS

MILOŠ COLIĆ
MANAGING DIRECTOR
NEW ENERGY, (ENLIGHT RENEWABLE ENERGY PARTNER)

Day 2 – November 14th, 2019
• 11:30 Lessons learned/Best practices and case studies. How developing Alibunar, Malibunar, Čibuk and Kovačica wind projects changed wind energy developments in Serbia? What lessons have been learned during the development process?

MAJA TURKOVIC
MANAGING PARTNER
CONTINENTAL WIND PARTNERS

RUDOLF TOT
DEPUTY OF PROVINCIAL SECRETARY
PROVINCIAL SECRETARIAT OF VOJVODINA FOR ENERGY, CONSTRUCTION AND TRANSPORT

Day 2 – November 14th, 2019
• 13:00 Investing in wind energy in the Balkans: requirements, new investment avenues and obstacles.

CHRISTOPHE BOLS
COUNTRY MANAGER SERBIA
ELICIO WIND

Day 1 – November 13th, 2019
• 11:30 Lessons learned/Best practices and case studies. How developing Alibunar, Malibunar, Čibuk and Kovačica wind projects changed wind energy developments in Serbia? What lessons have been learned during the development process?

BOJAN REŠČEC
COUNTRY MANAGER
RP GLOBAL

TIZIANO GIOVANNETTI
CHIEF EXECUTIVE OFFICER
FINTEL ENERGIA GROUP

Day 1 – November 13th, 2019
• 13:30 Maestrale Ring - building the largest wind farm in Europe.

TIMELY AND TOPICAL
Agenda is always build with industry leaders advise and reflects the current state and the direction in which the industry is headed.

LISTEN TO INDUSTRY LEADERS
Our speakers are carefully selected, seasoned experts with detailed knowledge of their field representing the most advanced companies.

NETWORK
An extremely popular feature of our conferences, a great opportunity not only to network in a out-of-conference environment but also to taste specially selected traditional local cuisine.
INTRODUCING CONFERENCE SPEAKERS

BRANISLAV MARIĆ
PARTNER
KINSTELLAR
Day 1 – November 13th, 2019
• 14:00 Panel discussion: Creating stable legal environment for wind energy in Serbia and Balkans

VUK STANKOVIĆ
HEAD OF ROKAS BELGRADE
ROKAS
Day 1 – November 13th, 2019
• 14:00 Panel discussion: Creating stable legal environment for wind energy in Serbia and Balkans

ANA ČALIĆ TURUDIJA
PARTNER
PRICA & PARTNERS
Day 1 – November 13th, 2019
• 14:00 Panel discussion: Creating stable legal environment for wind energy in Serbia and Balkans

ALEKSANDAR SAVIĆ
HEAD OF PUBLIC SECTOR AND SPECIALIZED LENDING
ERSTE BANK SERBIA
Day 2 – November 14th, 2019
• 13:00 Investing in wind energy in the Balkans: requirements, new investment avenues and obstacles

VLADIMIR BENCUN
FINANCE PROJECT MANAGER
HRVATSKA POŠTANSKA BANKA / CROATIAN POSTAL BANK
Day 1 – November 13th, 2019
• 13:00 Investing in wind energy in the Balkans: requirements, new investment avenues and obstacles

BORIS BEKAVAC
EXECUTIVE DIRECTOR, CORPORATE BANKING DIVISION
HRVATSKA POŠTANSKA BANKA / CROATIAN POSTAL BANK

Bold and forward-thinking agenda featuring top Greek wind industry experts.

- Derek Michalski -
Editor-in-Chief, The Voice of Renewables

INTRODUCING CONFERENCE SPEAKERS

MIROSLAV LUTOVAC
ADVISOR TO THE PRESIDENT
SERBIAN CHAMBER OF COMMERCE

Day 2 – November 14th, 2019
• 11:30 Lessons learned/Best practices and case studies

DEJAN STOJADINOVIĆ
ENERGY CONSULTANT

MIRSAD JAŠARSPAHIĆ
PRESIDENT
CHAMBER OF ECONOMY OF THE FEDERATION OF BOSNIA
AND HERZEGOVINA

I have attended and spoke at a number of conferences organised by VoR. Every time the experience was a very positive one – both the set up and networking opportunities were great.

- Dan Cocker -
Partner, Allen & Overy
GREEK MARKET IS ABOUT TO BOOM!

WHY BALKANS

Our 5th annual WINDMission Balkans conference and exhibition focused on the Balkan wind power sector is a well-established meeting point of choice for local and international wind energy experts wanting to stay in the know on this developing market.

As every year, we are hosting the most active wind projects developers, investors, consultants and renowned energy lawyers from Serbia, Croatia, Bosnia and Herzegovina, Montenegro, North Macedonia, Romania and Bulgaria. Whether you are already active in the Balkan wind energy market or are would like to learn about it for the first time – this is the networking conference where you will meet all those who are in the know.

WHAT MAKES WINDMISSION BALKANS UNMISSABLE?

- Hear industry success stories for optimal operations
- Reduce lost performance by tackling inefficiencies in supplier management
- ONLY event addressing contract negotiation, strategy and best practice
- Practical lessons focused on owning and acquiring in the European secondary market
- Actual cost-saving measures through technical discussion take-away REAL solutions to improve output and ROI

WHO SHOULD ATTEND

- Asset owners
- Asset operators
- Investors
- Asset managers Legal professionals
- O&M contractors
- Insurance
- Energy lawyers
- Developers and EPCs
- Consultants

NATIONAL TARGETS AND SCOPE FOR GROWTH

There is huge potential for wind energy (in the Balkans) … but more stable policies and better support mechanisms are needed to ensure steady growth," the European Wind Energy Association (EWEA) said in a report that tipped Serbia as the most promising market. The region is also attracting investors as its prospects for economic growth are expected to outpace that of euro zone.

Final energy consumption may grow by about 25% over the period up to 2030. The region has a significant transformation potential towards a low carbon energy system. The current share of renewable energy of gross final energy consumption in the Western Balkans Six is 28%. The renewable energy mix almost exclusively consists of biomass and hydropower. Besides further increased use of biomass, significant growth is also expected in wind and solar power. Until 2030, the highest growth is expected to be in Serbia and Bosnia and Herzegovina, although the highest relative growth can be expected in Kosovo and Bosnia and Herzegovina.
UL provides independent technical advisory, certification, testing and inspection to the wind energy industry.

Our comprehensive portfolio of technical advisory services help stakeholders plan, design, finance, build, invest, operate, maintain, and manage wind energy projects. Our certification, testing and inspection services verify the safety, reliability, performance and compliance of wind turbines and components.

We empower trust in wind energy by helping our stakeholders mitigate risk and navigate complexities throughout the project lifecycle and across the value chain. With a team of over 500 experts and 35 years of experience UL has worked on the design of more than 200,000 MW of on- and offshore wind projects in more than 140 countries throughout the world.
